

Northampton Department of Public Works  
Water Division  
Northampton, Massachusetts

**CITY OF NORTHAMPTON'S  
CONSOLIDATED WATERSHED RESOURCE PROTECTION  
PLAN**

For the

Mountain Street Reservoir and the  
Francis P. Ryan/West Whately Reservoir Complex

**P.W.S. ID No. 121400**

Revised September 2004

# WATERSHED RESOURCE PROTECTION PLAN - NORTHAMPTON

## Table of Contents

	<u>Page</u>
<b><u>Section 1: Background</u></b>	
1-1 Project Background	1-1
1-2 Use of this Report	1-1
1-3 Regulatory Framework	1-2
1-4 Existing Water Supply System	1-3
1-5 Report and Map Explanation	1-6
<b><u>Section 2: Description of the Watersheds</u></b>	
2-1 F. P. Ryan/West Whately Reservoir Complex	2-1
2.1.1 Major Physical Features and Components of the Water System in Relation to the Watershed	2-1
a. General Watershed Features	2-1
b. Watershed Boundaries	2-3
c. Watershed Protection Areas	2-4
d. Water Withdrawal	2-4
2.1.2 Hydrological Characteristics of the Watershed	2-5
a. Precipitation Patterns	2-5
b. Stream Flow Characteristics	2-6
2-2 Mountain Street Reservoir	2-6
2.2.1 Major Physical Features and Components of the Water System in Relation to the Watershed	2-6
a. General Watershed Features	2-6
b. Watershed Boundaries	2-7
c. Watershed Protection Areas	2-8
d. Water Withdrawal	2-8
2.2.2 Hydrological Characteristics of the Watershed	2-9
2-3 East Mill River Reservoir (Future)	2-9
2.3.1 Major Physical Features and Components of the Water System in Relation to the Watershed	2-9
a. General Watershed Features	2-9
b. Watershed Boundaries	2-10
c. Watershed Protection Areas	2-10
d. Water Withdrawal	2-10
2.3.2 Hydrological Characteristics of the Watershed	2-11

**Section 3: Identification and Risk Assessment of Watershed Characteristics and Activities Detrimental to Water Quality**

3-1 Introduction	3-1
3-2 Naturally Occurring Attributes of the Watershed	3-2
3.2.1 Soil Erosion Potential	3-2
3.2.2 Wildlife Populations	3-8
3-3 Man-Made Contamination Sources	3-9
3.3.1 General Assessment of the Three Watersheds	3-9
a. Generalized Land Use	3-9
b. Commercial and Industrial Land Use	3-9
c. Forestry	3-11
d. Animal Rearing/Agricultural	3-13
e. Residential Development	3-14
f. Activities Subject to State or Federal Approval	3-15
g. Sewage Disposal	3-17
h. Gasoline Stations and Petroleum Storage	3-17
i. Hazardous Waste Sites	3-17
j. Road Salt Storage and Application	3-17
k. Unauthorized Activities	3-19
l. Transportation and Roadway Related	3-20
m. Future Development	3-20
3.3.2 Francis P. Ryan/West Whately Reservoir Complex	3-22
a. Residential Development	3-22
b. Sewage Disposal	3-23
c. Underground Storage Tanks	3-23
d. Future Development/Road Status	3-23
e. Forestry	3-23
f. Transportation Related	3-24
3.3.3 Mountain Street Reservoir	3-24
a. Transportation Related	3-24
b. Residential Development	3-24
3.3.4 East Branch Mill River Reservoir (Future)	3-25

**Section 4: Control of Detrimental Activities/Events**

4-1	Control of Activities/Events through Ownership Interests in the Land	4-1
4.1.1	F.P. Ryan/West Whately Reservoir Complex	4-4
4.1.2	Mountain Street Reservoir	4-5
4.1.3	East Branch of the Mill River Watershed	4-6
4.1.4	Summary of Control of Activities through Ownership Interests	4-7
4-2	Control of Activities/Events through Regulatory Controls	4-7
4.2.1	Water Supply Protection Zoning	4-9
4.2.2	Flood Plain District Bylaws	4-12
4.2.3	Hazardous Materials Bylaws	4-13
4.2.4	Underground Storage Tank Bylaws	4-13
4.2.5	Earth Removal Bylaws	4-14
4.2.6	Environmental Impact Analysis	4-14
4.2.7	Septic Additives/Inspections	4-15
4.2.8	Private Well Regulations	4-15
4-3	Control of Activities/Events through Management Practices	4-17
4-4	Future/Recommended Actions for Control of Detrimental Activities/Events	4-17
4.4.1	General Water Supply Protection Measures	4-18
a.	Public Education	4-18
b.	Inspection and Monitoring	4-18
c.	Support of Title 5 Regulations	4-19
d.	Cooperative Efforts to Protect Principal Surface Water Supply Watershed	4-19
e.	Support of the Western Valley Water Protection Committee	4-20
4.4.2	Water Supply Protection Actions to Minimize Identified Water Supply Quality Threats	4-20

**Section 5: Raw-Water Quality Parameters**

5.1	Water Quality Monitoring Samples and Sites	5-1
-----	--	-----

**Section 6: Management/Operations**

6-1	Management	6-1
6.1.1	Existing Organizational Structure	6-1
6.1.2	Staff Requirements for Control Components	6-1
6.1.3	Educational and Certification Requirements	6-2
6-2	Operations: System Operations and Design Flexibility	6-2
6.2.1	Emergency Response Plan	6-2
6.2.2	Operational Changes in Response to Change in Water Quality	6-3
